**(Cover Photo)** Work continues on the new co-located headquarters for U.S. Army Forces Command (FORSCOM/USARC) and U.S. Army Reserve Command at Fort Bragg, N.C., due to open by Sept. 15. The two major commands will move from their current locations at Fort McPherson in Atlanta, Ga., to Fort Bragg as part of the Base Realignment and Closure Act. The Savannah district oversees the \$303 million headquarters project comprised of four buildings totaling 700,000 square feet that will provide space for 3,085 people. This 993-day, high profile project has required teamwork; clear, and open communication; and joint ownership of challenges by all parties to overcome the rapidly changing information technology environment. **(Inset)** Everett Mappin, senior construction representative, gives Savannah District Commander Col. Jeffrey Hall a status update on the project. **(Above)** Dan Davis, resident engineer, FORSCOM/USARC Project Office, Fort Bragg, N.C., thanks workers for their dedication to safety, quality, and progress, during a celebratory lunch in March. Workers have logged more than 1.3 million craft hours without a "lost time" injury since the project's groundbreaking in December 2008. *U.S. Army photos by Jim Hinnant, FORSCOM PA*
