Available Hartwell Lake Volunteer Positions – 2014

Campground Volunteers

The primary duty of the Campground volunteer is to maintain cleanliness at camp sites as outlined below. Volunteers will be responsible for cleaning campsites as visitors check out of the campground. Duties include cleaning out debris in fire rings, picking up litter left on site, spraying for insects, and transporting and disposing of trash in campground dumpsters. Facilities should meet the standard of clean daily.

Volunteers will also assist with the Water Safety and Life Jacket Loaner Programs as needed. Duties include making contact with campground visitors, handing out water safety items and loaner life jackets. Volunteers will average 25 hours of service per week, though mid-week work will be minimal.

The host must provide their own reliable, licensed vehicle, fuel, and insurance to transport materials including trash. Volunteers must maintain a valid driver's license. Volunteers may use a golf cart or similar vehicle while performing assigned duties. Prior approval is required. No vehicles/transportation will be provided by the government.

A campsite will be provided to volunteers with water and electric hook-ups. Sewer dump stations are available in each campground. All cleaning equipment, supplies, and uniform items will be provided by the Corps.
