

# Funding

- Reimbursable project funding will be provided by the supported installation/base or responsible IMA Region/MAJCOM or from the Corps of Engineers Installation Support funds. Project funds will be managed either by the assigned Project Manager in PM-M or, in cases where the work is located outside the Savannah District AOR, by the Master Planning Project Engineer. All funding will be established in CEFMS by PM-MM. Master planning funds can be provided through the use of a Military Interdepartmental Purchase Request (MIPR), an Economy Act Order, or a Project Order and must be fully obligated prior to the expiration date. Funding information will be contained in the abbreviated PMP for the specific project.
- The fee for a typical planning charrette is \$50,000.
