**B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE**

**REVIEW AREA ONLY INCLUDES DRY LAND:** There were a few features that the consultant was unsure if they would be waters of the US. After conducting a site visit, the mapped wetlands did not meet any hydric soil indicators and the mapped streams showed no evidence of OHWM. There was no bed and bank and no line of wretsted vegetation. They appeared to be areas of overland flow resulting from the commercial buildings nearby.

<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
