

DRY LAND APPROVED JURISDICTIONAL DETERMINATION FORM¹
U.S. Army Corps of Engineers

This form should be completed by following the instructions provided in Section IV of the JD Form Instructional Guidebook.

SECTION I: BACKGROUND INFORMATION

A. REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD): September 5, 2019

B. DISTRICT OFFICE, FILE NAME, AND NUMBER: Piedmont Branch Office, Plummer Road Site, SAS-2019-00557

C. PROJECT LOCATION AND BACKGROUND INFORMATION:

State: Georgia County/parish/borough: Fulton City: Atlanta
Center coordinates of site (lat/long in degree decimal format): Lat. 33.7186 °, Long. -84.5846 °
Universal Transverse Mercator: [Click here to enter text.](#)

Name of nearest waterbody: Chattahoochee River
Name of watershed or Hydrologic Unit Code (HUC): 03130002

- Check if map/diagram of review area is available upon request.
 Check if other sites (e.g., offsite mitigation sites, disposal sites, etc...) are associated with this action and are recorded on a different JD form.

D. REVIEW PERFORMED FOR SITE EVALUATION (CHECK ALL THAT APPLY):

- Office (Desk) Determination. Date:
 Field Determination. Date(s): August 21, 2019

SECTION II: SUMMARY OF FINDINGS

A. RHA SECTION 10 DETERMINATION OF JURISDICTION.

There are no "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.

There are no "waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

SECTION III: DATA SOURCES.

A. SUPPORTING DATA. Data reviewed for JD (check all that apply - checked items shall be included in case file and, where checked and requested, appropriately reference sources below):

- Maps, plans, plots or plat submitted by or on behalf of the applicant/consultant: [Click here to enter text.](#)
 Data sheets prepared/submitted by or on behalf of the applicant/consultant.
 Office concurs with data sheets/delineation report.
 Office does not concur with data sheets/delineation report.
 Data sheets prepared by the Corps: [Click here to enter text.](#)
 U.S. Geological Survey Hydrologic Atlas: [Click here to enter text.](#)
 USGS NHD data.
 USGS 8 and 12 digit HUC maps.
 U.S. Geological Survey map(s). Cite scale & quad name: Refer to Figure 1
 USDA Natural Resources Conservation Service Soil Survey. Citation: Refer to Figure 3
 National wetlands inventory map(s). Cite name: Refer to Figure 2
 State/Local wetland inventory map(s): [Click here to enter text.](#)
 FEMA/FIRM maps: Refer to Figure 4
 100-year Floodplain Elevation is: [Click here to enter text.](#) (National Geodetic Vertical Datum of 1929)
 Photographs: Aerial (Name & Date): [Click here to enter text.](#)
 or Other (Name & Date): Refer to Appendix C
 Previous determination(s). File no. and date of response letter: [Click here to enter text.](#)
 Applicable/supporting case law: [Click here to enter text.](#)
 Applicable/supporting scientific literature: [Click here to enter text.](#)
 Other information (please specify): [Click here to enter text.](#)

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: The project site was inspected to take soil samples to check for hydric soils in the lowest areas located along the boundary of the site that borders Plummer Road. A few areas within the site boundaries had sparse hydrophytic vegetation and soil samples were taken in these areas to check for presence of hydrology and hydric soil. No hydric soils were present and no hydrology was present on the site. The areas where storm water flows across the site had the appearance of valleys forming to convey storm water off-site, none of these valleys were indicative of streams there were no physical characteristics of an OHWM. No aquatic resources are located on the project site, and therefore no permit from the Corps is required to develop this site.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
