

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD):

ORM Number: SAS-2020-00189

Associated JDs: N/A or ORM numbers and identifiers (e.g. HQS-2020-00001-MSW-MITSITE)

Review Area Location¹:

State/Territory: GA City: County/Parish/Borough: Douglas County

Center Coordinates of Review Area: Latitude 33.800512 Longitude -84.64574

Excluded waters $((b)(1) - (b)(12))^4$:

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

Exclusion Name	Exclusion Size	Exclusion⁵	Rationale for Exclusion Determination
Isolated Wetland	0.5 acres	(b)(1) Non-adjacent wetland	This wetland does is not adjacent to a TNW

III. SUPPORTING INFORMATION

- **A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.
 - **_X**_ Information submitted by, or on behalf of, the applicant/consultant: Wetland Data Sheet, dated June 25, 2020.

This information is sufficient for purposes of this AJD.

Rationale: N/A

___ Data sheets prepared by the Corps: N/A

Photographs: (NA, aerial, other, aerial and other) Title(s) and/or date(s).

X Corps Site visit(s) conducted on: June 22, 2020

Previous Jurisdictional Determinations (AJDs or PJDs): ORM Number(s) and date(s).

X Antecedent Precipitation Tool: provide detailed discussion in Section III.B.

X USDA NRCS Soil Survey: Soil Map – Douglas County, Georgia, February 21, 2020

X USFWS NWI maps: USFWS NWI Inventory, February 26, 2020

X USGS topographic maps: USGS 7.5 Min Topographic Quad, March 2, 2020

Other data sources used to aid in this determination:

Data Source (select)	Name and/or date and other relevant information
USGS Sources	N/A.
USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	National Flood Hazard Layer FIRMette, March 3, 2020.

- **B.** Typical year assessment(s):): At the time of field verification, the climatic conditions were normal, per Antecedent Precipitation Calculator (i.e. the seven-day rolling average of documented precipitation for the review area was within the 30%-70% probability for the area based on the historic weather station data records queried).
- C. Additional comments to support AJD: The isolated wetland met all three criteria (water, soils, and vegetation) to be considered a wetland. This wetland did not have an overland connection to a TNW. This wetland did not have an overland connection to any aquatic resource. The wetland flowed under a culvert and then lost all criteria of being a wetland and flowed into a ditch. The ditch flowed south and then panned out into a flat area. The flat area did not meet any indicators of being a wetland. There are potentially jurisdictional waters to the south of this flat area but there is no direct connection between the isolated wetland and these waters to the south.

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
