Regulatory Division

PUBLIC NOTICE

The following is a list of Regulatory Actions for the month of March 2012. The list includes Individual Permits, Modifications, Letters of Permission, Extension of Time Requests, Withdrawn, Denials and Approval of Revised Plans.

In determining whether to issue or deny each permit request, the Savannah District evaluated the probable impact including cumulative impacts of the proposed activity on the public interest. The decision reflected the national concern for both protection and use of important resources. The benefits, which reasonably may be expected to accrue from the proposal, were balanced against its reasonable foreseeable detriments. We have considered all factors that may have been relevant to the proposal including cumulative effects. Among those factors were conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and in general, the needs and welfare of the people. No permit was granted if its issuance was found to be contrary to the public interest. The environmental documents and Statement of Findings for the projects listed in this notice are available to the public upon written request. Fees will be charged where applicable.

DAVID E. CROSBY
Assistant Chief, Regulatory Division

Enclosure

PROJECT NO.	PERMIT TYPE	PERMITTEE	COUNTY	WATERWAY
199305520	Individual	Belvedere Island Dock 1	McIntosh	Unnamed
