

Earth's Waters foldable directions

Resources: <http://www.kidspuzzlesandgames.co.uk/wp-content/uploads/2012/04/OceanLayers.pdf>

Ranger Rick [online](#) magazine.

Students will create a 4 layer [foldable](#). View the link for directions.

ON the first layer, students will include the shore and top layer of the ocean. ON the second and consecutive layers, they will include the subsequent layers. For each of the layers (on the outside), students will include layer titles, pics/names of animals/plant life which would appear in the layer.

On the inside of the flaps, they will include details/ facts on the temperature zones, pressure, depths, and characteristics of the layer on the outside of the flap.

ON the back of the foldable, students will glue a map of the world where they have first colored the salt and fresh water different shades of blue. (Coloring land/ landforms is up to your discretion.)
