**PRINCIPAL PURPOSE:** The public notice is the primary method of advising all interested parties of proposed activities for which a permit is sought and of soliciting comments and information necessary to evaluate the probable impact on the public interest. Copies of public notices will be sent to all parties who have specifically requested copies via this form. It is presumed all interested parties and agencies will wish to respond to public notices; therefore, a lack of response will be interpreted as meaning there is no objection to a proposed project. This information may be added to other mailing lists for notification of future meetings and events related to the USACE Regulatory program.

**ROUTINE USES:** Utilized to develop mailing lists for distribution of Corps Regulatory Public Notices. This information is a public record and may be disclosed to other Federal or local agencies for governmental purposes as well as to private individuals and organizations under the Freedom of Information Act.

**DISCLOSURE:** Completion of this form is voluntary. However, failure to supply the information requested may result in your (or your agency's) omission from further Public Notices and other notification regarding participation in the process.
